## 359 Shaker Slick

Shaker Slick is a water soluble silicone based lubricant for use in tree shakers equipped with automatic lube systems. It has been successfully used on many tree types including Almond, Peach, Pecan, Pistachio, Prune, and Walnut. When used at the recommended treatment levels, Shaker Slick will provide the following benefits:

- Extends the life of pads and slings by lowering temperatures which results in reducing wear.
- Treatment ratio can be varied to remain economical while still offering protection.
- Prevents tree debarking.

### Notes:

Shaker Slick should be mixed with water prior to use. Shaker Slick should be kept from freezing. If separation occurs Shaker Slick can be mixed back into solution.

**TREATMENT LEVELS:** 1-2 quarts of product to 25 Gallons water.

### TYPICAL PROPERTIES (Undiluted)

Relative density	1.001
Viscosity 40°C cSt (ASTM D-445)	135
pH	9.5 to 11
